XIV. Specific Social Media Guidelines by Medium for Authorized Sites

Twitter

Twitter is an online social networking site where members can post short updates and keep up with other members through online profiles or cell phone text messages. Effective and approved applications for County use of Twitter would be to re-broadcast the County's blog headlines, news releases, testimonies, statements, public service announcements, accomplishments, job announcements, and to alert citizens of emergency broadcasts, epidemics, recalls, hazardous materials incidents, national incidents, terrorists' threats and natural disasters.

Legal implications of Twitter relate primarily to the privacy of members that follow County Twitter accounts and the appearance of commercial endorsement. County Twitter accounts should not be used to follow personal, commercial, or political Twitter accounts.

In order to comply with the requirements of this policy, a link from the Twitter profile to the disclaimer and comment policy on the County web page should be included.

Retweeting should be limited to information from appropriate, credible sources such as government agencies, authorities/boards, commissions, and industry leaders.

Facebook

Effective applications for County use of Facebook include public outreach programs that target segmented audiences, public service announcements, departmental contact information, emergency broadcasts and other public affairs activities.

Legal implications of County use of social media relate primarily to:

1. Copyrights of video footage and photos uploaded by County representatives. Risks can be mitigated by following these standard operating procedures:

- a. County source materials. Use only photos and videos produced by the County or contractors working directly on behalf of the County

- b. Obtain written copyrights. If copyrighted materials are use, be sure to get and maintain physical records of copyright licenses and honor any branding or labeling requirements specified in the copyright license.

2. Privacy rights of individuals who become friends, fans or followers of County sites. Social media users will follow these guidelines:

- a. Account. County representatives who set up accounts should use a general office e-mail account, department name and general office phone number if possible.
- b. Restrict to Find People and Follow People. County representatives should not follow private citizen or commercial profiles from within their County social networking profile. While the County cannot necessarily stop all people from being Friends, Fans or following us, employees should not click onto the profiles of our Friends, Fans and Followers.
- c. Comments and Discussions. Representatives must refrain from participating in dialogue and online discussions with social profile visitors unless to clarify services provided. While it is encouraged for visitors to submit questions, comments, criticisms and concerns, the social profile is a moderated online discussion site and not a public forum.

3. Accessibility rights are governed by Section 508 compliance and web accessibility for people with visual and hearing disabilities. Social media users will follow these guidelines

- a. Video captions and transcriptions. Embed captions within videos as part of the postproduction process. Provide transcripts of videos and attempt to include these transcripts on the social networking site. Maintain Section 508 compliant videos, captions and transcripts on the County's website and attempt to link back to the County website from the social networking site.
- b. Photo - alternative descriptions. Name the photo after the description before uploading it to the social networking site. Write text captions and descriptions when social networking site makes these form fields available.
- c. PDFs. Work to make document compliant in source format before converting to a PDF. Use formatting such as headers when applicable. Embed hyperlinks within the anchor text rather than supplying the physical URL to the right of anchor text.

4. Brand management of County logos and color or style guides. Social media users will follow these guidelines:

- a. Profile Picture. County profiles should upload the County or departmental seal or logo as their picture. It is important to use the County/departmental seal or logo to demonstrate authenticity.

- b. **Profile Design.** County profiles should use colors consistent with the County's brand, and should not use extraneous or distracting design. All design should be in keeping with Section 508 compliance (web accessibility) needs and maintain professionalism and consistency with County branding.

5. Open Records requirements are mandated by the State of Wisconsin. County social media authors will use existing material from existing County web pages or previously published documents.

Blogs:

Blogs are forums which allow the posting of information and allow comments to such posts. Individuals who wish to use blogs to keep the public regularly informed of the activities of their departments are required to do so within the bounds of this policy. Kenosha County will allow the use of County related blogs under the following standards and conditions:

1. Whenever possible, blogs should be hosted on County servers or with County approved service provider, managed by the Division of Information Technology.
2. Employees are permitted to create, or use a blog only with the approval of their Department director.
3. Blogs must be reliable and dependable. Once a blog is started, it must be regularly updated and maintained.
4. Only County-related matters are to be addressed in blog entries.
5. All blogs, comments, and postings must be respectful to employees, divisions, departments, residents, and others.
6. Blogs and blog posts must be accurate, fair, unbiased, and reflect positively on Kenosha County.
7. Posts should not be edited after the fact. Those making changes to previous posts should indicate that they have done so.
8. All blog postings will be monitored. Employees have no expectation of privacy in their use of County technology resources.
