

Office of the Village Administrator
Michael R. Pollocoff

March 17, 2010

The Honorable Jim Kreuser
County Executive of Kenosha County
1010 56th Street
Kenosha, WI 53140

Dear County Executive Kreuser:

The Village of Pleasant Prairie is pleased to support Kenosha County's response to Google for consideration as a pilot area for the Google fiber network. The opportunity county wide to provide ultra-high speed broadband service could potentially support all current and future enterprises which maintain private and public systems.

The Village manages numerous data systems, and we understand the potential reward of being a part of a high speed fiber network. The Village of Pleasant Prairie acknowledges Google's vision of a future ultra high speed technology and we believe it is appropriate for the Village to participate in this technology. Pleasant Prairie also looks forward to working with the County of Kenosha if chosen to be a Google Fiber site.

Sincerely,

A handwritten signature in black ink that reads "Michael R. Pollocoff".

Michael R. Pollocoff
Village Administrator
