Dear County Executive Kreuser:

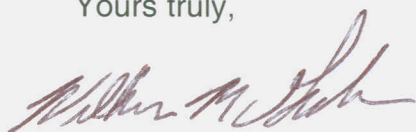

Re: Grant for Google Ultra-High Speed Broadband Network

The Town of Wheatland is in full support of Kenosha County's application for a grant thru Google for an ultra-high speed broadband network. We realize the benefit to business, the educational community, law enforcement and judicial systems, health care providers, and individual residents.

The more uses we find for Internet information and online services, the more rapidly we want that information provided. The availability of ultra-high speed broadband would be a tremendous advantage to the county.

Thank you for pursuing this grant. We hope you are successful.

Yours truly,

William M. Glembocki
Wheatland Town Chairman
